

Instrumentation

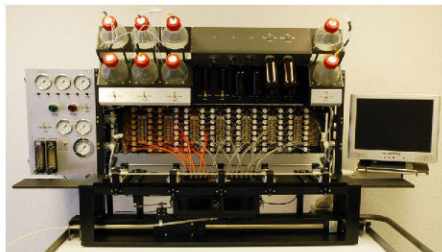

Classic Quality Without Classic Pricing!

Azco BioTech, Inc., an industry leader in the sale of reagents and supports for oligonucleotide synthesis, is proud to offer new and refurbished laboratory and bioprocess equipment. Azco BioSystems, will focus on providing the highest quality, certified instrumentation that has been refurbished to the original manufacturer's specifications. All of our instruments are quality certified, sold with a warranty and service contract to support our customers at all times. In many instances, Azco BioSystems will be capable of outfitting an entire laboratory or facility.

Azco's pledge to our customers is as follows:

- To supply our customers with lab instrumentation that exceeds their expectations.*
- To continually have the highest quality products in the industry.*
- To grow our business through customer satisfaction and repeat business.*
- To offer complete solutions through instruments, reagents and responsive support.*

With a focus on genomics and genetic discovery, Azco BioSystems will provide a wide variety of instrumentation. Currently, our offerings include:

- DNA and RNA Synthesizers*
- DNA Sequencers*
- PCR Instruments*
- HPLC Systems*
- Mass Spectrometry*

We are constantly purchasing instruments and adding to our inventory. To see our current inventory or contact us with your needs, please visit us at www.azcobiotech.com
